

A Mouse Strain Allowing for Ligandregulated Activity of Beta-catenin in Cutaneous Keratinocytes

TECHNOLOGY NUMBER: 2950

OVERVIEW

A mouse strain allowing for ligand-regulated activity of beta-catenin in cutaneous keratinocytes (K5/S33Ybeta-catenin-ER)

Technology ID

2950

Category

Research Tools and Reagents

Inventor

David Van Mater Eric Fearon Frank Kolligs Andrzej Dlugosz
