

Engineered *Xenopus Laevis* Tissue Culture Fibroblast Cell Line

TECHNOLOGY NUMBER: 2021-028

OVERVIEW

These are engineered *Xenopus laevis* tissue culture cell lines derived from fibroblasts. One is the parental line and two are engineered: one line expresses the biotin ligase BirAV5 and the other expresses the biotin ligase BirAV5 and the *Xenopus* Krüppel-like factor 9 BIO fusion protein, which can be biotinylated in vivo.
